ENCOURAGING REPORTS.

Special Dispatch to The N. Y. Tribenee.

New Haven, Thesday, Sept. 11, 1866.

The "My Policy" party in this vicinity, do not feel as glorious over Andy Johnson's recent speeches as they would desire. He has disappointed them. They tremble as Felix did before Paul; for they are now well aware of the great mistake their mad haste has caused them to commit. It is generally understood in this city, the My large are about to start a campaign paper. It will never succeed. It may live for a time, but rain will mark its career; and it will fizzle out unlamented and understood in the candidate for Congress to be ran by the Conservative party next Spring. He is just what the Republican Party will delight in. He has been once defeated, in the old Whig days, for Congress, and it is the opinion of those who are acquainted with his political career that he will run so far behind his ticket, that any true opponent whom the Republicans are political career that he will run so far behind his ticket, that any true opponent whom the Republicans for the state a cold support. Everywhere they denounce his late speeches as unbecoming a patriot and a President. We cannot better conclude this dispatch than by quoting the remarks of an eloquent orator in the Republican ranks who is identified with the interest of lagst as laged.

Yale College. He said to us during a conversation to-day:
"Never has the political excitement in this country run
higher, since the campaign of Fremont, than at this period.
And I believe the glorious victory won by the Republican
party in the Maine election, will be repeated in every State
from Maine to California—for the people are disgusted with
'my policy' and with the man who would force it upon
them."

NEW-JERSEY.

FIFTH CONGRESSIONAL DISTRICT-GEO. A. HALSEY NOMINATED BY THE REPUBLICANS FOR CON-

The Republicans of the Vth Congressional District of New-Jersey, consisting of the City of Newark and the County of Hudson, held their Convention at Odd Fellows Hall, Hoboken, at 2 o'clock yesterday afternoon, to nome nate a candidate for Congress. Wm. S. Whitehead of Newark was appointed temporary Chairman, and J. W. Gilmore of Jersey City, and Charles Chamberlain of Hoboken, Secretaries. A Committee on Permanent Organ ization, consisting of one member from each Ward and Township, were appointed, who reported the following officers, viz.: President, John Rodgers of Hudson; Vice-Presidents, James M. Quimby and F. Schlund of Newark, and Adolph Mechet and Col. Fred. Cooper of Hudson Secretaries, Chas. C. O. Jessup of Newark and Charles Chamberlain of Hudson. On taking the chair Mr. Rogers made some appropriate remarks, thanking the Convention for the honor conferred upon him. Col. Johnson of Newark, on behalf of the committee delegated by the noon meeting of soldiers and sailors, presented the names of Gen. Ramsey, Cols. Dougherty, Cummings and Ward, and Major Pangborn, to the consideration of the Convention. Col. Ward then asked to have his name taken from the list. When the Convention proceeded to put candidates in nomination it was found that every ward and township was in favor of George A. Halsey of Newark, late United States Internal Revenue Assessor of the Fifth District, and a victim to "my policy," and he was nominated by acctamation and with enthusiastic cheers.

Among the other noticeable features of this Convention was the pussage of a resolution declaring that a lasting peace can never be secured until the principles of Universal Suffrage are extended to every state in the Union. There was great unanimity of sentiment manifested and Mr. Halsey's triumphant election is assured beyond question. made some appropriate remarks, thanking the Convention

Soldiers' And sailors' Meeting at Horoken.

An adjourned meeting of Soldiers and Sailors was held at Horoken yesterday at 12 o clock, pursuant to the resolution of adjournent passed at a meeting held at Newark on the 30th of August. The meeting was called to order by Gen. Ramsay. permanent Chairman, and Lieut. Pearson was appointed Secretary. The minutes of the former meeting were read. A resolution was passed appointing a Committee of seven to present the names of suitable Soldiers to the Nominating Convention of the Fifth Congressional District of New-Jersey. The Committee consisted of Gen. Ramsay, and Cols. Ward and Johnson, and Chaplain S. T. Moore of Newark, and Major Pangborn, Capt. Edgar and S. S. Bragg of Hudson, who were instructed to present the names of Col. Dougherty, Col. Cummings, Col. Ward, Gen. Ramsey, and Major Pangborn to the consideration of the Convention.

Col. Ward and Chaplain Moore asked to be excused from serving on the Committee on the ground that they were members of the General Convention, but their request was not granted. After the business of the meeting was disposed of the Rev. Mathew Hale Smith, who was present, was called upon, and addressed a few words to the sailors and soldiers, saying that history and experience prove that a good soldier makes a good ruler. He said further that the mon who hurrahed for Andrew Johnson the other day in Broadway were the same mon who would have hung him two years ago. He declared that Andrew Johnson having arraigned Congress as murderers and traitors, it was their duty to investigate the charge at the next session, and, if false, visit slanderers in high places with condign punishment.

He then introduced the Hon. John O. The Charmman then said, I have now the pleasant and agreeable duty of introducing to you the next Lientenant-Governor of New-York, by not loss than 50,000 majority.

Gen. Wooddoun was received with cheers and long continued applanae. He spoke of the contest of 1860, when the people of these United States elected a President and a clorgress entertaining views of an opposite character than those held by a portion of the Union. The aristocracy of Slavery in the slaveholding States chose not to abide by the popular verdict and appealed to arms. Loval men accepted the issue, and both sides left the decision to the stern arbiter of hattle. In 1861, after a fail discussion, the loyal men accepted the issue, and both sides left the decision to the stern arbiter of hattle. In 1864, after a fail discussion, the loyal men accepted the issue, and both sides left through our streets, men decided again to preserve the Government and to extirgute Slavery and to settle the war in favor of freedom. In that contest treason was made to bite the dust. Then treason with an assassin's hand struck down the good President Lincoln, and as his lifeless corpies was borne through our streets, men whis pered with white lips as they bent over his cold remains and swore that treason should gain no advantage by his death. When treason sprung into the arena and grappled with the lawful authority it came in contact with the Government and treason was born

The speaker was repeatedly applanded during his brilliant address, and at the close three rousing cheers were given him. The Hon, John Oakhi was loudly called for, and made a happy and interesting speech in his usual felicitous style.

J. R. Finker, e.g., of New York, was then called for, and delivered a forcible and impressive speech, which was well received and frequently applanded.

The Glee Club was present and rang several patriotic airs in fine style and with pleasing effect.

THE NATIONAL DEMOCRATS OF KINGS COUNTY DECLARE WAR ON THE REGULARS.

As is well known, two sets of delegates were elected from Kings County to the Albany Democratic State Convention—one under the anspices of the regular organization, which had its birth last year from an illegilitimate body styling litself the "Chirzens" Committee, and which managed to be admitted in the State Convention of last year; the other having long been known as the "Nationals." Yesterday the State Convention again rejected the Nationals, reinforced as they were by the "National Union Conservatives," who united with thom in the election of delegates to that Convention, and bence a declaration of war.

After their rejection the delegates met at the Delavan Homas Sept. It and resolved, in substance, as follows. That two delegates from each Assembly District in Kings County had been elected under the joint call of the Democratic and Conservative State Committees, and that said delegation presented their claims to the said Convention and were ignored and excluded therefrom; therefore.

Resolved That such action is characteristic of the sminent wirspillers under whose suppose the great and once powerful Democratic party of New Yora democralized; that they ermestly and emphalically protest against such action as despetic and anti-republican, and that they recommend the "Nationals" and the "National Conservative" prizies of King County to nominate and present for the suffrage of its electors, candidates for the various Courtersoloal. CINCINNATI, Wednesday, Sept. 12, 1866. DEPARTURE PROM LOUISVILLE.

The Presidential party left Louisville for Cincinnati last night at 8 o'clock, and took passage on the steamer United States where every care and attention was bestowed by the President of the mail line to render the trip comfortable and leasant. The band of the Second Regiment United States

Infantry, accompanied the party.

An invitation was extended by Capt. Neal of Madison to stop at that city to see the steamer Richmond, now building by him, 340 feet long, to be low pressure, and the only low-pres. sure steamboat on the Western waters, but time did not permit a stoppage. The citizens of Madison were much disappointed as they had made ample preparations to extend their hospitalities and have a torchlight procession.

MET BY A COMMITTEE FROM CINCINNATI. At 8 o'clock, six miles from Cincinnati, we were met by the steamers Dumont and Rowens, with a large number of passengers and a band of music. The Committee of Reception from Cincinnati came on board the United States and called on the President, tendering him their escort to the city. The scene was exciting, cheering blending with the sound of music and the new comers all anxious to see the distinguished party, In going up river, and when at the outskirts of the city, the President stood on the upper deck, in company with Admira; Farragut and other distinguished members of the party, and the Hon. He continued to how and wave his hat to the cheering people on the banks of the river.

A COMMITTEE FOR COVINGTON, EX., WITH THE PARTY.

Robert Athey, esq., Chairman of the Committee of the Com mon Council and the people of Covington, Kv., here addressed the President, saying they were desirous of his paying a visit to Covington, and regretted that he could not make it convenient to do so. The people of Kentucky would delight to honor him as a man, for in him they perceived an illustration of the beneficent effects of republican institutions. They were aware of his career from the ranks of the people to the position he now occupied, and where he had achieved civic success. The otto of Kentucky was "United we stand, divided we fall." It was adopted long before the late Rebellion, and is most applicable to the present condition of affairs.

The President briefly replied, saying that no one regretted his inability to accept the hospitalities of Covington more than himself. He returned thanks for the honor. "As you," he said. "bave alluded to the motto of the State of Kentacky, United we stand, divined we fall," let me say, we must be united." This was received with applause.

IN SIGHT OF CINCINNATI. At 9 o'clock we were in full view of the city. The suspen sion bridge uniting Covington and Cincinnati is decorated with flags from one end to the other. National salutes are fired from Newport Barracks, and the Cincinnati public land ctators who wave their hats and cheer as the boats move on. The President is still standing upon the upper deck, bowing and waving his hat. The music of the bands unite with the heavy peals of the cannons. All is excitement.

WASHINGTON.

WASHINGTON, Wednesday, September 12, 1866. IMPORTANT INSTRUCTIONS FOR THE INTERNAL REVE-

NUE DEPARTMENT. Information has been received at the office of Internal Revenue that in various localities throughout the country distillers are running, in defiance of the provisions of the new Internal Revenue law concerning them. The regula tions in relation thereto, which have just been issued, contain

the following paragraph:

"Under no circumstances must a distillery be allowed to running until the requirements of law and the foregoing regulations have been complied with, and any distillery found running without such compliance must immediately be stopped by the collector."

have been complied with, and any distillery found running without such compliance must immediately be stopped by the collector."

Regulations concerning the manufacture, inspection and sale of distilled spirits have been issued from the office of Internal Revenue. By the act of July 13, 1866, section 32, there is laid on all distilled spirits upon which no tax has been paid a tax of \$2 on every proof gallon. This tax is to be a lien on the spirits distilled, on the distillery used for distilling the same, with the stills, veasels, fixines and tools therein, and on the interest of the distiller in the land on which the distillery is situated, from the time the spirits are distilled until the tax is paid. The tax is to be collected upon the wine gallon when the spirits are below proof, and upon the spirit gallon when the spirits are below proof, and upon the spirit gallon when they are of greater strength than proof. The exemption from this rule in favor of spirits used in the manufacture of vinegar or acetic acid which was created by the act of March 3, 1865, having been repealed by the act of July 13, 1865, such spirits will be taxed hereafter in accordance with the above rule. The making or keeping by any person of grain mash, wash or beer, prepared or fit for distillation, together with the possession by such person of a still or other apperatus capable of use for distillation upon the same premises, is to be deemed presumptive evidence that such person is a distiller. Every person who is or intends to be a distiller must give notice over his own signature to the assessor of the district in which such business is carried on. Boods given under the old law will not suffice. The use of any still, boiler or other vessel for the purpose of distilling, is forbidden in any dwelling-house, or in any building, or any premises where any other business except the manufacture of saleratus is carried on. In the proviso to Section 29 in the law, authority is to some extent implied in the collector to permit the distillatio

Commissioner of Internal Revenue directs the attention of Internal Revenue officers to section 59, which prohibits, under penalty of a fine of not less than \$500, their becoming directly or indirectly interested in the production of spirits. Any such officer now interested in the same must divest himself of such interest within 60 days after August 1, 1866, if he would avoid the penalty. Such unlawful interest will also be deemed cause for prompt removal from office.

NEW MINISTER OF FINANCE-THE BRITISH CAVALRY-THE FRENCH MINISTER-U. S. CONSULAR AGENCY AT OTTAWA-FENIAN MILITARY. Special Disputch to The N. Y. Tribune.

MONTREAL, Wednesday, Sept. 12, 1866.

The new Minister of Finance is the Hon. Mr. Howland, who also retains his portfolio as Postmaster-General. The cavalry coming out to Canada are not to take their horses with them, so that fresh horses will have to be bought for the force here. One thousand have been ordered for them, but it will take time to get suitable animals, and more time to train them, so that the coming cavalry will not be efficient for two or three weeks after its arrival. Capt. Window, late of the Kearsarge, is here, and is regarded with some interest. M. Montholon, French Minister to the United States, is looked for here in a day or two. A U. S. Consular Agency has been established at the Capitol, Ottawa. The frontier along Missisquoi and Huntingdon is considered the most open to attack, now that gunboats are posted along the chain of lakes and rivers, and a camp is to be established near Frelighsburg in Missisquoi. A break-up of some of the Volunteer Corps is threatened if the Adjutant-General does not beed Canadian opinion.

N. E. Bellean, Prayier, has said to a friend that the

N. F. Bellean, Premier, has said to a friend that the N. F. Bellean, Fremer, has said to a Fenian attack is alarming—that the danger now threatening the Province is greater than that of 1812-14. It is generally admitted here that the Fenian hostility is England's quarrel, and a party argue that the imperial authorities should undertake the defense of Canada in the present case. It is reported the Government of Canada in the present case. It is reported the Gov-ernor General is to go home at the latter end of this

MEETING OF TOBACCO MANUFACTURERS. THE PREVENTION OF FRAUDS ON THE TREASURY.

The Tobacco Cutters of New-York and New-Jersey held a meeting at the Astor-House at 3 o'clock yesterday afterheld a meeting at the Astor-House at 3 o'clock yesterday afternoon, for the purpose of taking measures to adopt a uniform
scale of prices, and to initiate a system of surveillance by
which frauds on the Revenue may be detected and punished.
Nearly \$30,000,000 of capital were represented at this meeting.
Mr. Lawrence of this city was called to the chair. He referred to the extensive frauds on the revenue by unprincipled
traders, and spoke of the necessity existing for hencet manufacturers to protect their interests. He suggested that each
member of the trade should be assessed in a uniform amount
to sid in punishing those who were cambled to sell manufactured tobacce at less than the price they could have established, if they had discharged their obligations to the Government.

Mr. Shouts of Albary Mr. Proposite of the dever-

maint.

Mr. Sheets of Albany, Mr. Bronson of Toledo, Mr. McAlpine and Mr. Lorillard of this City, made brief addresses, approving the suggestions of the Chairman.

The following committee was appointed to solicit and secure a conference with a similar committee of the Trade in the West; Messrs, Salmon of Spreame, Surgest of Rechester, Madenan of Red Hook, Payne of Albany, and Lorillard of New York.

The meeting then adjourned.

MRETING OF THE DRY GOODS CLERKS' EARLY LOSING ASSOCIATION .- Last evening a regular meeting of the Dry Goods Clerks' Early Clusing Association was held in their hall in the Bowery, the President, Mr. Lewis Fromme, in the

chair. The President and Treasurer of the Workingmen's Union appeared and were invited to seats on the platform. Union appeared and were invited to seats on the platform.

Reports were received from the Committees having in charge the duty of ascertaining whether the stores in the prominent streets close in accordance with the rule of the Association, showing that, with trifling exceptions, the rule has been carried out. Addresses were then delivered by Messrs. Taylor and Jessup, who made strong speeches in favor of the rule by which so many stores are closed at 7 p. m. Mr. Taylor reviewed the work which had been done by the Early-Closing Association. Mr. Jessup gave a review of the proceedings of the Baltimore Labor Convention, which he considered entirely satisfactory, not only in relation to the eight-hour movement, but also in relation to the early-closing movement.

Mr. Fromme, the President of the Association, then delivered an address. The theory of his address was that while liberty was progressing throughout the world—while the slaves of the South had been declared free, there was still here a war of capital against labor, and that, therefore protective associations of workingmen were an absolute necessity for the preservation of their rights, and should be encouraged by every workingman and every friend of the workingman. He concluded with a strong appeal in favor of the early-closing movement, after which the meeting adjourned.

A NEW-YORKER DREADFULLY INJURED AT NEW-ARE. - As the 8:00 train on the New-Jersey Railread was about leaving the Centre-st. depot in Newark yesterday morning for this city. Mr. Abraham Van Gieson, an employé of Messrs. Palmer & Smith, at the corner of Pearl-st, and Peck-slip, was rainer & Smite, at the corner of real-st, and recensly, thrown under the train and fearfully lnjured. Several of the cars passed over both his legs, and the right one was so badly crushed that amputation was found necessary. Mr. Van Gieson is well known as the inventor of a celebrated splitting machine, which is said to be one of the most ingenious inventions lately patented.

A Great Public Want Supplied.

Blessed in the memory of inture generations will be the names of Howe, and Singer, and Wilson, and Grover—through whose inventions successful sewing by machinery was first introduced. And thrice blessed in the memory of every household, and for all time to come, will be the names of Mesers. Willou & Gibbs, the inventors of that simpler and more perfect instrument, in which the long-sought object of all those inventors—the emiscipation of warman from the slavery of the needle—was first resilized. By the introduction of this invention, the Sewing Machine, as an instrument of universal family use, has at last become a practicul reality—an established exatitation, adapted to the capacities and wants of all classes. To the care worn wife and mother it is an angel of mercy! to the household—a nooutide blessing and an evening joy?

We are led to these remarks by the perusal of the following extract from the Report of the Grand Trial at Island Park :—"To appreciate faily the importance of this wonderful invention, it is necessary to consider some of the peculiar circumstances connected with its early bistory, and its relation to the other heading kinds of sewing mochinies—all of which, it is well known, are of the double-thread class, it will be remembered that previously to the introduction of this mochine, the country had become flooded with chear and worthless ones, and the public mind generally perjudiced in favor of the importance double-thread ones, it was no difficult task for those interested in the double-thread class to educate the perjudic need—the submitted of these chear interested in the double-thread class to educate the perjudic need—by the production of a simpler and better, as well as cheegers into these interested in the double-thread does in the submitted of the performed.

"It was at this period, and with a view to exprise or production of a simpler and better, as well as cheeger machinement the Wilson's as simpler and better, as well as cheeger machinement.
